Challenges

- ✗ Cumbersome to ingest and extract information
- ✗ Monitoring of ongoing trading processes
- ✗ Different departments were using different tools for monitoring devices
- ✗ Need for role-based security to protect sensitive information
- ✗ Data was static, difficult to search, and impossible to analyze

Solutions

- ✓ Monitoring with a lean, nimble team with less trained resources required
- ✓ Trading processes monitoring
- ✓ Bird's eye view of entire IT
- ✓ Seamless Integration with 3rd Party Vendors
- ✓ Monitoring distributed infra from one location
- ✓ Role based security

Benefits

- ✓ Unified Dashboard
- ✓ Secured Architecture than ever

By integrating a comprehensive monitoring system, we've gained real-time visibility across our infrastructure. The role-based security ensures sensitive data protection while enabling efficient operations with minimal resources, allowing us to manage distributed systems from a single location
